# Lab Exercise 6.1
# Managing Jenkins Freestyle Jobs

**Objective:** To manage Jenkins job by creating, renaming, and deleting freestyle job, facilitating streamlined job configuration and maintenance within the Jenkins environment

**Tools required:** Jenkins

**Prerequisites:** None

Steps to be followed:

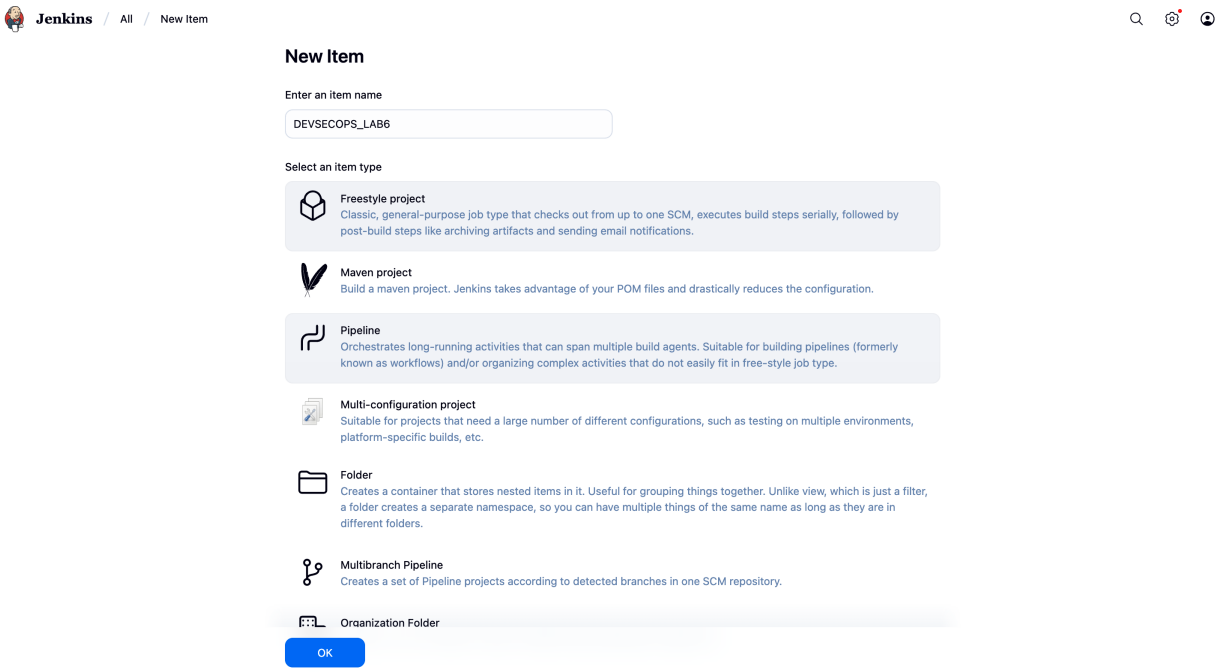
1. Create a new Freestyle Job
2. Rename and delete the FreeStyle Job

## Step 1: Create a new Freestyle Job

1. Open the browser, go to the Jenkins Dashboard by typing **localhost:8080** in your browser, provide the credentials, and click the **Sign in** button

2. Click on **New Item** in the Jenkins **Dashboard**

3. Enter a name for your project, select **Freestyle project** as the build job type, and click on **OK**



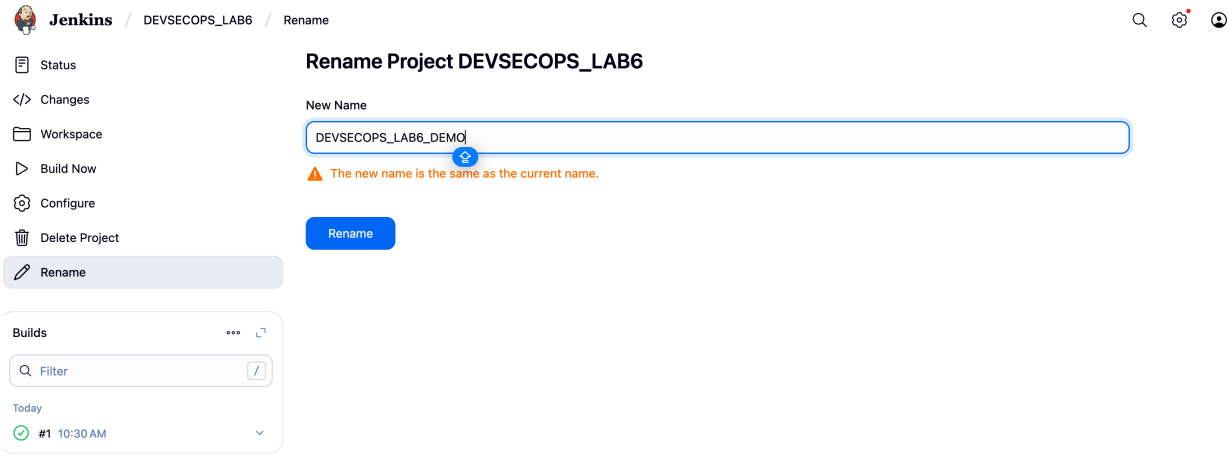
4. Click on **Save**

## Step 2: Rename and delete the Freestyle Job

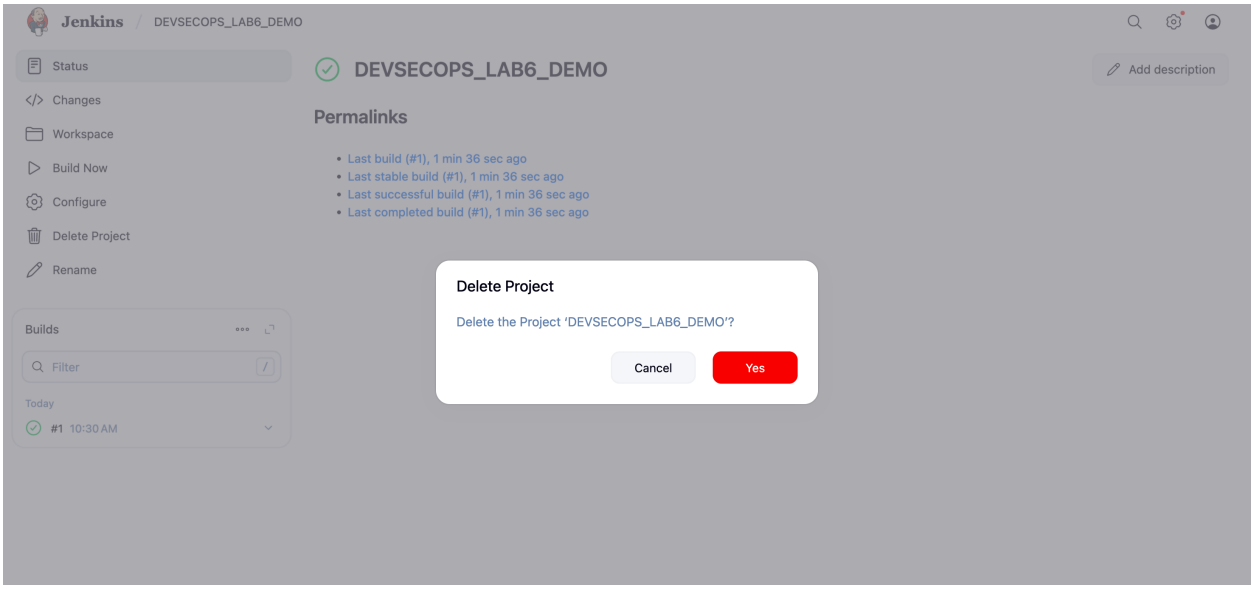
1. Click on the name of the project that you have created as shown in the screenshot below:

2. Click on the **Rename** button to rename the project

3. Enter a desired name to the project and click on **Rename**



4. Click on the renamed project and then click on **Delete Project** to delete the project



By following these steps, you have successfully managed Jenkins jobs by creating, renaming, and deleting Freestyle Job, streamlining your project workflows within the Jenkins environment.
