

Lab Exercise 6.1

Managing Jenkins Freestyle Jobs

Objective: To manage Jenkins job by creating, renaming, and deleting freestyle job, facilitating streamlined job configuration and maintenance within the Jenkins environment

Tools required: Jenkins

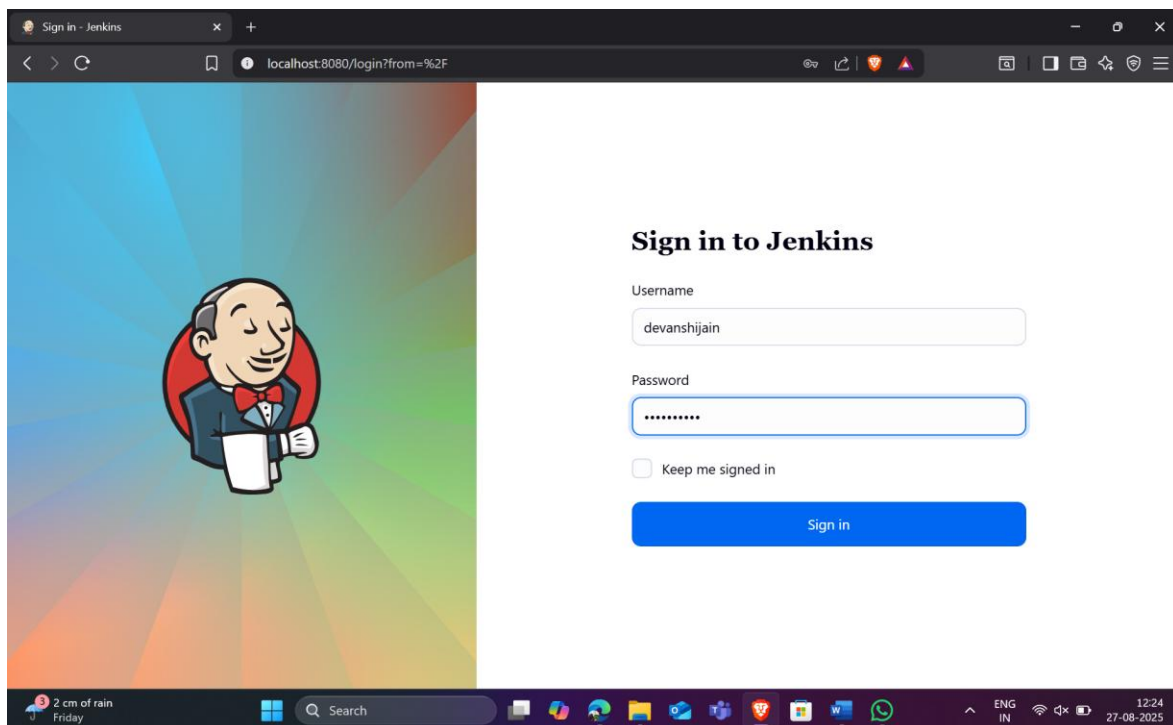

Prerequisites: None

Steps to be followed:

1. Create a new Freestyle Job
2. Rename and delete the FreeStyle Job

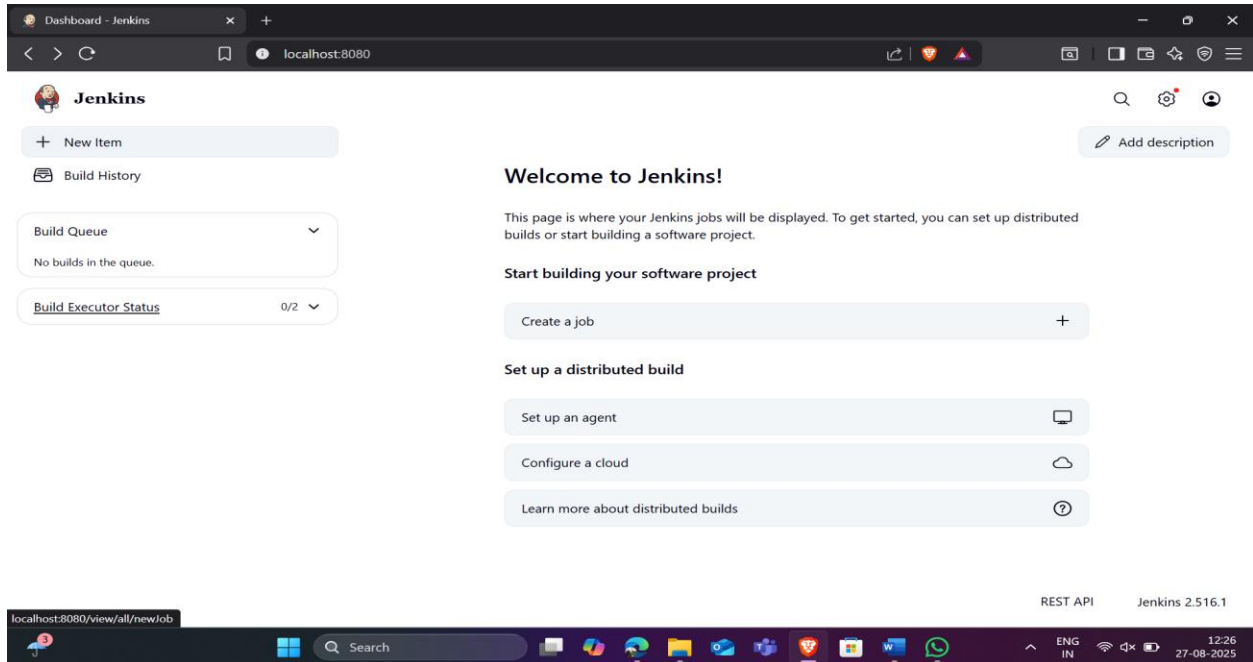

Step 1: Create a new Freestyle Job

- 1.1 Open the browser, go to the Jenkins Dashboard by typing **localhost:8080** in your browser, provide the credentials, and click the **Sign in** button

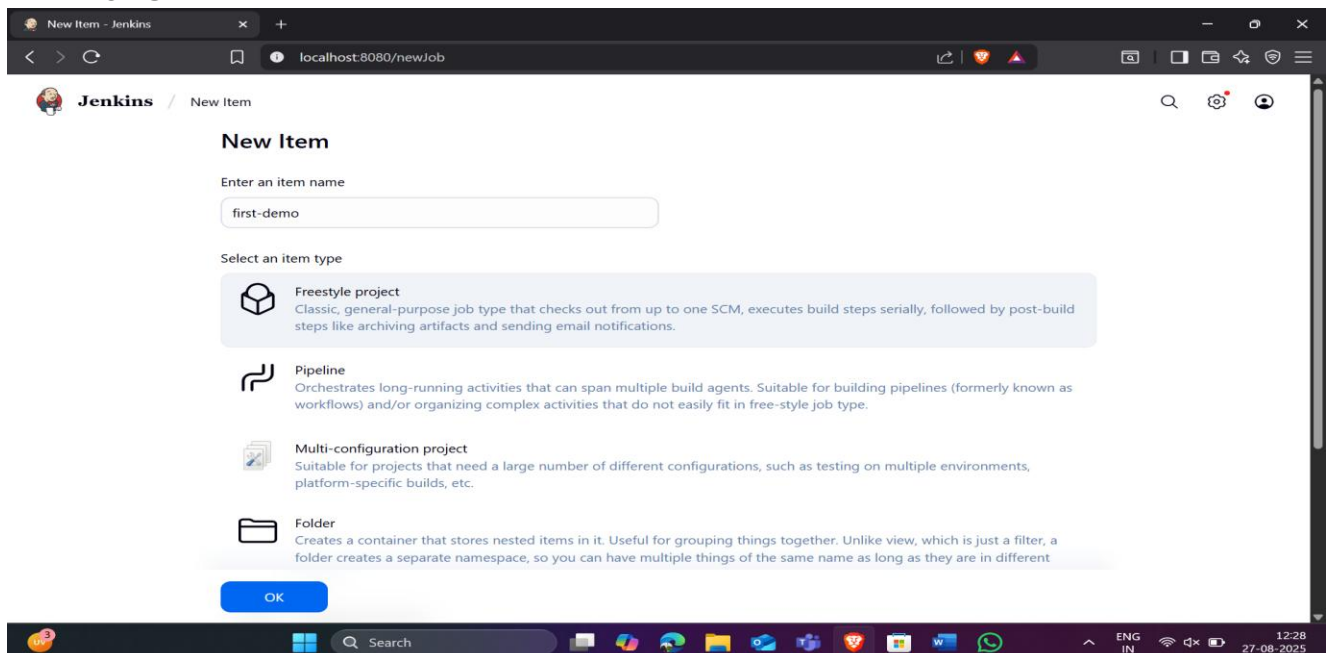

Note: The credentials for accessing Jenkins in the lab are Username: **admin** and Password: **admin**.

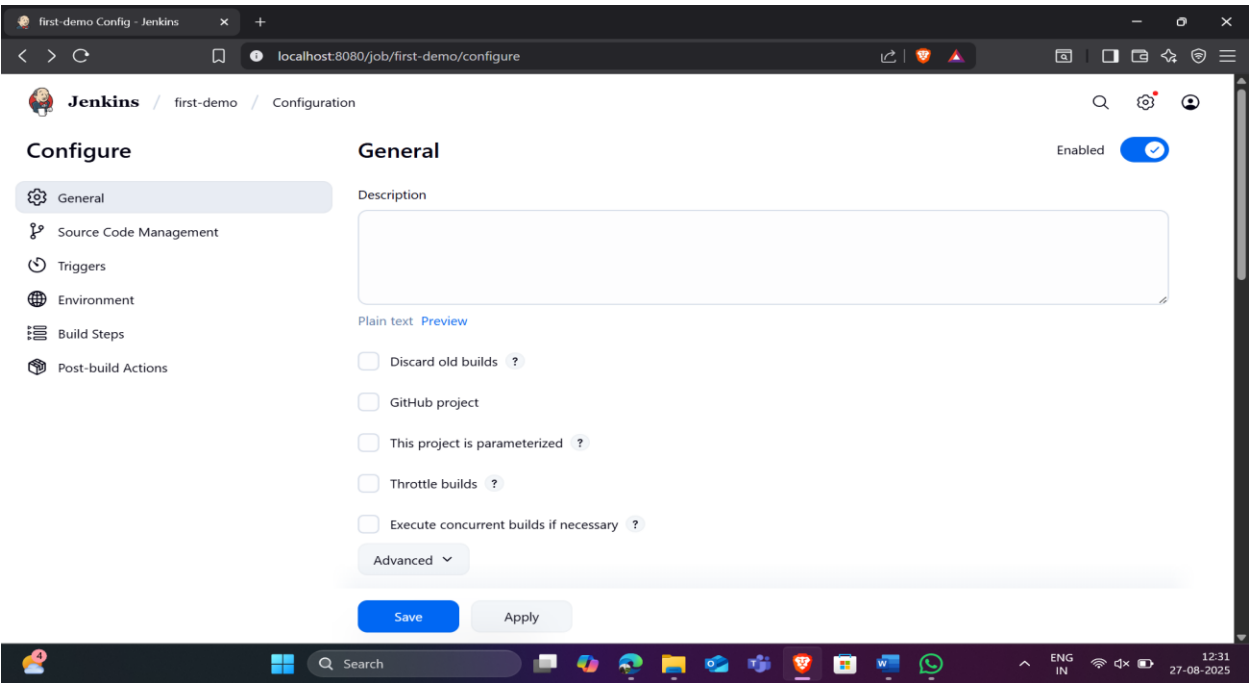

1.2 Click on **New Item** in the Jenkins Dashboard

1.3 Enter a name for your project, select **Freestyle project** as the build job type, and click on **OK**

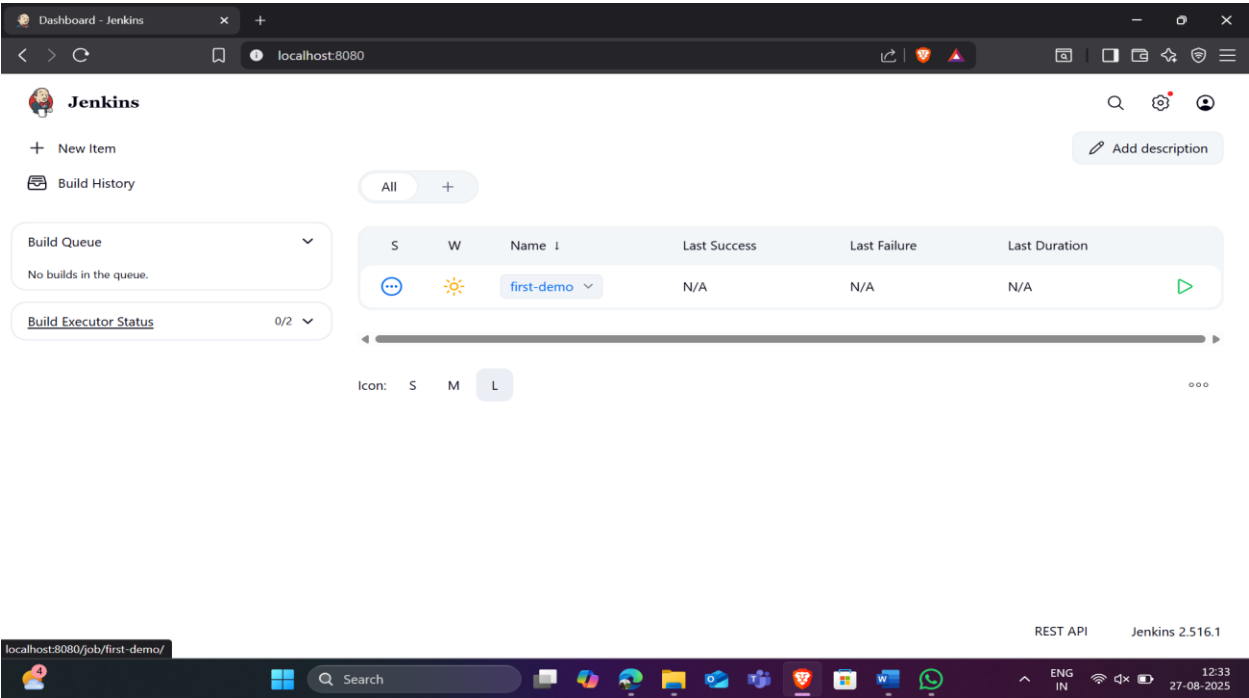

1.4 Click on **Save**

Step 2: Rename and delete the Freestyle Job

2.1 Click on the name of the project that you have created as shown in the screenshot below:

2.2 Click on the **Rename** button to rename the project

Rename Project first-demo

New Name

renamed-demo

⚠ The new name is the same as the current name.

Rename

Builds

No builds
